HIGH WATERS.

The February Thaw Commencing its Work.

Considerable Damage Done at Trenton, N. J. and Other Places.

TRENTON, N. J., Feb. 12.-The rains of the past few days have caused the ice in the Delaware River to break at Yardleyville, Pa., and the lower portion of Trenton is submerged. On Fair and Bridge streets the water is even with the second stories of the houses, and the occupants have of the houses, and the occupants have sought safety on the upper floors. The bridges across Assanpink have been carried away. The damage to furniture, residences and mills will be very heavy. Travel on the Pennsylvania railroad between this city and New York is suspended. Locomotives have been run on the bridges in order to prevent their being swept away. The residents paddle the streets in boats in the vicinity of Washington, Warren and Factory streets. Such a flood has not been experienced here since 1857.

Post Deposit Mr. Feb. 12—About, half

Factory streets. Such a flood has not been experienced here since 1857.

Fort Deposit, Mo., Feb. 12.—About half past 4 o'clock this afternoon the ice in the Susquehanna river, just north of this place, broke and came down with a rush. The ice and water quickly rose over the tracks of the Columbia & Port Deposit railroad, and swept through the lower portion of the town, flooding the streets to a depth of three or four feet. The inhabitants were compelled to move promptly, leaving their houses and goods to the mercy of the floods. Subsequently the water found vent and recoded, but left the streets blockaded with immense quantities of ice. The river is higher than for many years, and for more than a mile the railroad tracks are covered with water and ice, which is rushing down the grade with tremendous force.

READING, PA., Feb. 12.—The Schuylkill river at this point is ten feet above low water mark, and still rising at the rate of six inches per hour. An immense ice gorge formed about midnight at Shoemakerville, fifteen miles north of here. Large blocks of ice were piled many feet high, and when the water rose the ice was pushed on the adjoining lowlands, sweeping away trees, fences and small outbuildings, and flooded many farm-houses.

many farm-houses.

Washisoton, Feb. 12.—A disastrous flood is feard here. There are two lee gorges above the city and one below. The Potomac is rising rapidly, and it is raining hard all along the line. Mer hants in the lower part of the city are removing the goods to places of safety.

New Brunswick, N. J., Feb. 12.—The Raritan river has overflowed its banks and submerged the lower part of the city. All business in the ship-yards, and local yards along the river has been suspended, and the works of the New Jersey Rubber Company have been compelled to shut down.

DYNAMITE-KEROSENE-MULE Two Workmen in a Shaft Have a Very

Lively Time.

Ngw York, Feb. 12.—Thomas Dean and
John Gee, laborers on the aqueduct at Shaft No. 9, Sleepy Hollow, at daybreak, yesterday, undertook to convey to the heading of the shaft two cases of giant powder, each weighing fifty pounds. The powder, each weighing fifty pounds. The explosive was on a car drawn by a nule. On the same car, although contrary to the orders given to the workmen, were several cans containing kerosene oil, and on one of the cas rested a lighted miner's lamp. Suddenly the mule baked and kicked and overturned the car. The lamp set fire to the oil, and Dean and Gee started for the heading of the shaft 1,000 feet distant. They had nearly reached the opening when the expected explosion occurred. Several cars were utterly demolished, and the air was filled with fragments of rock and timber. Neither of the men, however, was seriously injured. Gee was slightly bruised ber. Neither of the men, however, was seriously injured. Gee was slightly bruised by some of the flying fragments, and also suffered somewhat from the concussion of the air. Dean was lifted off his feet and thrown up against the roof of the tunnel. He also received some bruises, but he suffered mainly from fright. The mule, as if aware of the serious results of its friskiness, kicked itself from its traces and imitated its drivers in taking immediate flight. Although the men had the mule handicaped by a good start it was a close race between the three to see which should reach the shaft first. The mule had a slight advantage, as the men were about as anxious to keep out of its reach as they were to get away from the dynamite.

A SERIES OF FRAUDS. Remarkable Circumstances Developed by

an Application for a Pension SHELBYVILLE, ILL., Feb. 12.—A remarkable pension fraud has just been brought to light in this city. In 1862 Jacob Roellinger deserted from the French army and inger deserted from the French army and came to this country and joined the Union forces. Fearing that the French would aid the Confederacy, and that he would be captured and punished as a deserter, he deserted his New York company and enlisted under an assumed name in the Ohio infantry. In the original command he was still accounted for, and was finally reported as to en prisoner. In the meantime he served out his time in the "Buckeye" company, was discharged and came to this city. About four years ago he applied for a pension giving his name as Carmon. The claim was pigeonholed until a few days ago, when a special agent dropped in to investigate the case, and made the following revelations: Fred Roellinger, of New York, is drawing a pension as the dependent father of Jacob Roellinger, who, it is alleged, died at Andersonville; another man claiming to be Boellinger drew his back pay and bounty and went to Europe, while a third named Cassidy is drawing a pension on his own name an Jacob Roellinger in another. Still a fourth, representing himself to be Roellinger, made application, but was apprehended and sent to the penitentiary, while a fifth applicant is now on file at the department for the alleged widow of the soldier in question. Notwithstanding all these complications, the case is now in a fair way to be cleared up, when the rightful soldier will receive his dues. ame to this country and joined the Union

Wife Murderer Hanged.

BUFFALO, N. Y., Feb. 12.—Charles Her-mann, the wife murderer, was hanged this morning. Hermann was a native of Prus sia and forty-two years of age. THE GREAT BOSTON FLOOD.

Nearly 1,000 Houses submerged—Two Square Miles Covered With Water Ranging From Two to Eight

Feet Deep. Boston, Feb. 14.-The area at Roxbury flooded by the overflow of Stony brook is constantly increasing. The water has risen over a foot since yesterday, and through some streets the current rushes at the rate of ten miles an hour. Two square miles of the city is now under water from two to eight feet. The section covered is nearly oblong in shape, and is bounded by Norfolk House Hill on the southwest, Northampton street on the northeast, Shawmut avenue on the southwest and the B. & P. R. R. on the northwest. The source of the flood is the bursting of the confines of Btony brook, near Norfolk Hill. From that point the flood has steadily progressed toward the center of the city proper. It has passed Arnold street, the old Roxbury boundary, and has reached Northampton street. The cellars, and in some instances, the first floors of nearly a thousand houses are flooded. In low sections the houses are almost enirely submerged. Over 1,500 families are more or less affected, and a conservative estimate of the loss to buildings and stock is \$500,000. The territory drained by Stony brook comprises many square miles in Jamaica plain and Roxbury and the lower and surface water on this section might all be added to the flood. At one point near Franklin park there is a lot of fitty acres covered with water three feet deep, all of which must flow off through Stony brook. The mayor, police commissioners and other city officials are at work establishing depoks of supplies and arranging for the relief of the sufferers. A large part of the inhabitants living in the flooded district are still living in the upper stories of their houses waiting tor the flood to subside. There have been many narrow escapes from drowning. Immense throngs of people have visited the flooded district teday, and the streets in that vicinity have been black with humanity since early this morning. the rate of ten miles an hour. By Rev. Dr. John R. Paxton, of the First

NEW YORK, Feb. 14 .- In the first Presbyterian Church, in West Forty-second steeet, to-day, the Rev. Dr. John R. hardware business house in Cleveland came into Wayne, and other counties of this State, to sell what they called grist-mills. Two farmers named Smith and Hatten, were induced to purchase, and gave their notes for \$250 each. In course of time the mills came, and proved to be worthless pieces of machinery, which could be bought anywhere for a few dollars. The duped farmers tried to have their notes canceled, when they found they had been dissounted at the banks, and that they had been swindled. No such firm as they were claimed to represent exists in Cleveland, and the innocent farmers would do well to fight shy of the sharpers.

DRIVE-WHIST.

A Game that is Taking the Place of Pro-Drive-whist is raging in the East

progressive euchre raged iu the West last season. It has been introduced in a limited number of Detroit homes by ladies and gentlemen, who practiced it while visiting Boston, New York and Philadelphia friends. Drive-whist is not very unlike progressive euchre in its general form. Any number of tables may be brought into the game; one hand is played and then the couple change tables, advancing in rotation as in progressive euchre; only in drive-whist the same partner is kept throughout the evening. Then, again, it is more social, because each couple must in the course of the evening meet with and play every other couple in the room unless, of course, there are more coupled. unless, of course, there are more cou-ples than there are hands played; but as it is possible to play from thirty to hirty-live hands between the hours of 8 and 10:30 o'clock, the last contingency is not likely to arise. Players assert that the game is very fascinating.

To play drive-whist the host or hostess must procure score cards in sufficient

number so as to provide each couple with one. These score cards are made with one. These score cards are made like dancing programmes to be fastened by 2 cord, and give a space at the top for the lady's name and address, and opposite the gentleman's name whose partner she is. Below the card is ruled in spaces so that there is one column for points won, another for points lost and a third for points when the card is ruled and a third for points when the card is ruled and a third for points when the card is ruled as the card is ruled in spaces. another for points lost, and a third for another for points lost, and a third for the names of your opponents. The manner of choosing partners for the evening is left to the ingenuity of the hostess, and different ways are adopted. One is to write the gentlemen's names on the score cards (one name on each card) and then let the ladies draw one card each. When partners are once selected they are kept throughout the evening. The cards are dealt and one hand is played. At the end one couple at each table has won a number of points and the other couple has lost. The gentlemen then make a record. each on his own card, of the points won or lost, with the names of the other couple. The losing couple at the table then change places, each going to the next table, and the losing couple at the head table going to the vacant place at the foot. Another hand is dealt and played, another record made, another change of positions follows, and the game goes on. At the close of the game, when the number of hands previously decided upon have been played. each couple adds together all the points won and all lost, and this determines the difference. The couple that has won the greatest number of points is entitled to the head prize, and the couple that has lost the greatest number of points gets the foot prize. The prizes are provided by the host or hostess, or if a club meets to play it procures prizes from its club fund for that purpose. The score cards are given to the ladies at the completion of the game. - N. Y.

Loss of Flesh and Strength, with poor appetite, and perhaps slight cough in morning, or on first lying down at night, should be looked to in time. Persons afflicted with consumption are proverbially unconscious of their real state. Most cases commence with disordered liver, leading to bad digestion and imperfect assimilation of food—hence the emaciation, or wasting of the flesh. It is a form of scrofulous disease, and is curable by the use of that greatest of all blood-cleansing, anti-bilious and invigorating compounds, known as Dr. Pierce's "Golden Medical Discovery."

It is a medicinal preparation, and, at the same time, an elegant and cleanly toilet article. Its action upon the scalp is healthful. It nourishes the glands which support the hair, and causes thin, dry hair to become thick, soft, and vigorous. It restores the color of youth to locks which have become faded with age or disease; and relieves and cures itching, caused by humors of the scalp. Dr. George Gray, Nashua, N. H.; writes: "It gives me pleasure to testify to the wonderful effects produced by Hall's Vegetable Sicilian Hair Renewer, as observed by me in very many cases. IT WILL CERTAINLY RESTORE THE HAIR TO ITS ORIGINAL COLOR. It cleanses the head of dandruff, and leaves the hair soft, glossy, and beautiful." F. T. Sandhein, 1010 Spruce st., Philadelphia, Pa., writes: "After unavailingly trying a number of preparations to prevent my hair from falling out, and; realizing that I tras fast becoming bald, I tried, as a last resort, Hail's Hair Renewer. I have used only four bottles of the Renewer, and am perfectly satisfied hat it is the best preparation in the market for checking the falling but of hair, invigorating the hair roots, and promoting a new growth."

Tough meat is made tender by lying a few minutes in vinegar water. -Rice cakes are a dainty. Haif a cup

of cold boiled rice, the same of corn meal, one egg, a bit of butter, salt and sugar; milk to make a rather thin batter. Grease the pan well, as these are apt to stick.—The Cook.

There is no use in trying to fatten half-grown chicks. There will be a great difference in the condition of chicks of different breeds at the same age, but until well matured they will not fatten.—Cincinnati Times.

-Nice Fruit Cake: Six eggz, half . cup of milk, one cup of sugar, one pint of molasses, three cups of butter, one teaspoonful of soda, spices to suit taste, raisins, currants, citron and flour. This cake is very rich and will keep a long time. - Christian Union.

A correspondent of the Farm and Garden says: "My grapes were rotting badly. At one time I thought I should lose half of them. I showered them with a preparation made of carbolic acid one-fourth ounce and water twelve quarts. This was very effective, and stopped the rotting at once.'

A few drops of carbolic acid added to mucilage or ink prevents mold. If an ounce of carbolic acid be added to each gallon of whitewash, applied to cellar or dairy, it will not only prevent mold, but the disagreeble taints often perceived in meats and milk kept in damp apartments.—N. Y. Post.

Barn-vard manure should not be used on soils in the year of planting when raising beets for sugar manu-facture, says the Sugar Beet. The de-composition of this organic substance is slow, and its beneficial effects occur in the very part of the season when the roots do not require a stimulant - To-

-Baked Onions: Boil the onions slightly in water; cut in halves, and take out the centers. Fill the cups with a stuffing of bread-crumbs moist-ened with an egg and a little butter; season with grated cheese, pepper and thyme. Bake in a quick oven, with a little gravy to prevent from burning.— Boston Bulletin.

-Green Pea Soup: Take one can of green peas, boil them in two quarts of water until tender enough, so that they can be easily reduced to a pulp; strain off the liquor, mash the peas, put the liquor and peas together again in the stewpan, add a little parsley or mint if you like it, stew it well and boil eight minutes. Strain the soup and serve with toasted bread.—N. Y. Her-

Barley (ground into meal) and potatoes are recommended as a most excellent food for making sweet and healthful pork; the potatoes being first boiled and the barley meal added to the hot water with the potatoes and all mashed together so as to make a thick mush. To this might be added as much butterrille or kinmed will as much buttermilk or skimmed milk as can be appropriated to this use, which is one of the best and most profitable ways of utilizing it.—N. A Decoy Cow.

We hear a good deal about the value of trained and tame animals in assisting herders to manage unruly flocks and herds. The shepherd dogs about the stock yards are of almost incalculable value in driving stock. The cow ponies of long experience play a not ponies of long experience play a not unimportant part in helping the boys to handle the unwieldy herds. Occasionally when a steer gets on a wild rampage he can not be managed until surrounded by a few lazy, good-natured beeves, which act as decoys to make him forget his tormentors. At loading places on the plains cow men frequently have trouble in getting herds into the loading pens. It is said that at Dickinson, D. T., where so many Montana cattle were loaded last year, there is a cow which earned about one thousand one hundred dollars last year in leading one hundred dollars last year in leading herds into the pens and preventing stampedes. The cow is said to go into a big herd, run around for awhile and get the cattle to follow her, then run into the inclosure, the others following. Her owner receives five dollars per head, we are told, for her decoy services. If this is true it beats the milk or beef business.—*Drover's Journal*.

A CONGRESS OF HUMORISTS. A Little Book, Full of Valuable Information and Rich Humor.

With the advent of every year there come new inventions, new discoveries and new ideas, but certainly there could be no happier idea to u has been carried out in a little book, a copy of which we have just received. To it the best humorists and comic artists of best humorists and comic artists of America have contributed, and when, for example, we find the rich humor of "Bill Nye" illustrated by the quaint conceits of Opper, of Puck, it can readily be understood that the work is of the most original character. "M Quad," "Wade Whipple," R. K. Munkittrick, Opie P. Read, and others who have afforded amusement to hundreds of thousands of people throughout the land. sands of people throughout the land, sands of people throughout the land, are each represented by some characteristic production. The book, which is published annually by the Charles A. Vogeler Company, of Baltimore, Md., is the St. Jacobs Oil Family Calendar and Book of Health and Humor for the Million for 1886. Besides the original contributions in prose and verse, it contains a calendar for each month in the year, with rising and setting of sun and with rising and setting of sun and moon, dates of eclipses and church festivals and a list of the most important events of the world's history. The two special articles manufactured by this house are St. Jacobs Oil and Red Star Cough Cure. The wonderful efficacy of the former as a conqueror of pain, is recognized all over the world and it costs only fifty cents a bottle. The latter—the new twenty-five cent remedy for coughs and colds—contains no opiates or poisonous narcotics and is indorsed by public men throughout the country. The book is now being distributed in large cities he was research. country. The book is now being dis-tributed in large cities by carriers; and in small towns and villages it can be had through druggists. In cases where it can not be obtained through either of these mediums, it will be sent by the publishers on receipt of a stamp. -- Exchange

"For years I suffered from indigestion, being very restless in the night, and in the morning I would get up with a very tired feeling. After taking only part of a bottle of Hood's Sarsaparilla I slept well and feli prefreshed on waking. Hood's Sarsaparilla has done me more good than anything else."

Mrs. H. D. Winars, Jackson, Mich,
"Hood's Sarsaparilla has cured me of bloodho'son."

W. H. Barr, Steubenville, O.
"When in the spring I felt all run down and much debilitated, I found Hood's Sarsaparilla just the medicine to build me up. My wife also, after much physical prostration found in its use new life and lasting benefit. Upon our little girl, who had been sick with searlet fever, its effect was marvelous, entirely removing the poison from her blood and restoring her to good health. Hood's Sarsaparilla deserves our highest praise." E. G. Straatton, Swampscott, Mass.

I am now 49 years old, and have suffered for the last fifteen years with a lung trouble. I have spent thou, sands of dollars to arrest the march of this disease; but temporary relief was all that I obtained. I was unfit for any manual laborfor several years. A friend strongly recommended the use of Swift's Specific (S. S. S.), claiming that he himself had been greatly benefited by its use in some lung troubles. I resolved to try it. The results are remarkable. My cough has left me, my strength has returned, and I wight skity of the last the strength of the strength of the season of the strength of the strength of the strength of the season of the strength of the

GRATITUDE.

I had used Dr. Pierce's 'Favorite Prescription' one week, I could walk all over the door-yard, and I could get into awagon and ride two miles to see my neighbors. I had not been able to walk to see my neighbors were all surprised to see my neighbors were all surprised to see my neighbors were all surprised to see me up and going about and helping to do my housework, after doctoring with threen of the best physicians we could get—and the last one told my husband that I would never be able to do my housework any more. I am thankful to my God that I wrote to you, for I had suffered from 'Female Weakness' until I had almost given up in despair."

"ALL RUN

TERRIBLE
PAIN.

Mrs. F. E. WILCOX, Friendship, N. Y., writes:

"For five or six years I had been badly troubled with female weakness and terrible pains across the small of my back and pit of the stomach. Three bottles of Dr. Pierce's 'Favorite Prescription' acted like a charm, and cured me completely, to my great joy."

MARVELOUS
BENEFITS.

Hev. Sidney C. Davis, Galien, Michigan, writes:
"I wish, in this letter, to express my gratitude for Mrs. Davis and myself for the great good which has been accomplished in her case by the use of your proprietary medicines. When she began to take them, in January last, she could not encould stay up only about thirty minutes at a time. Now she not only sits up almost the entire day, but can walk around, call on her neighbors, two and three blocks away, and not feel any injurious effects at all. When we consider that she had kept her bed the greater part of the time for four-teen months, and would lose repeatedly the advance she had made, her progress now seems marvelous. We had almost lost confidence in medical practitioners, and advertised remedics, but have found in your Dr. Pierce's 'Favorite Prescription' and 'Pellets' the complete and final recovery."

DOCTORS

A. Lovely, Greenfield, Addir Co., Ionea, writes:
R. V. Pierre, M. D. Dear Sir—"Having been ill
a number of years, and having tried in vain almost
every advertised remedy, as well as having paid
nearly a bundred dolars to our local physicians,
without benefit, I was finally induced to consult you. You advised me to send for your medicines. I agoordingly sent for your
'Medical Adviser, six bottles of your 'Golden Medical Discovery,
six of your 'Favorite Prescription,' and six vials of your 'Pleasant
Purgative Pellets.' When I first began using these I could not
stand on my feet. In ninety days I could walk a mile, and do
light housework; whilst in six months I was completely cured,
and my health has remained perfect ever since. I recommend
you and your medicines wherever I go and loan your 'Adviser' to my friends. Two of our most prominent physicians
who have read your great work 'The People's Common Sense
Medical Adviser,' pronounce it the best family doctor book they
have ever seen.'

Mrs. Caroline Byers, corner Duke and Argule Streets, Halifax, N. S., writes: "Dr. R. V. Pierce. I thanks. for the relief that you a thousand times, the 'Favorite Prescription' and 'Pellets' have given that had troubled me for years. How my heart is overflowed with joy and gratitude towards you, my tongue can never express."

Mrs. V. H. Peterson, of Lockport, N. Y., had suffered for three years from "female weakness," was greatly emaciated and "all run down" as she expressed it, and Pf. Pierce's "Favorite Prescription" and "Golsen Medical Discovery" promptly cured her, as they have thousands of

Mrs. E. F. Morgan, of Newcastle, Lincoln Co., Maine, says: "Five years ago I was a dreadful sufferer from uterine troubles. Having exhausted the skill of three physicians. I was completely discouraged, and so weak I could with difficulty cross the room alone. I began taking Dr. Pierce's 'Favorite Prescription' and using the local treatment recommended in his 'Common Sense Medical Advisor.' I commenced to improve at ouce. In three months I was perfectly cured, and have had no trouble since. I wrote a letter to my family paper, briefly mentioning how my health had been restored, and offering to send the full particulars to any one writing me for them, and inclosing a stamped envelope for reply. I have received over four hundred letters. In reply, I have described my case and the treatment used, and have earnestly advised them to 'do likewise.' From a great many I have received second letters of thanks, stating that they had commenced the use of 'Favorite Prescription,' had sent the \$1.50 required for the 'Medical Adviser,' and had applied the local treatment so fully and plainly laid down therein, and were much better already."

DOCTOR'S

Mrs. Henry Patterson, of New York City, writes: "I had been under an eminent physician's care for eight months for what he called 'spinal disease.' I became worse during all this time, when, chancing to see a copy of Dr. Pierce's Medical Adviser at the residence of a friend, I read that part devoted to 'Woman and her Diseases.' I soon became convinced that my disease was a uterine affection, which, as you say, caused sympathetic backache, inward fever, nervousness, and general debility. I commenced the use of Dr. Pierce's 'Favorite Prescription' and 'Golden Medical Discovery,' applying also the local treatment which he recommends in the Adviser, and in three months I was well and strong."

OVER WORKED WOMEN.

Dr. Pierce's Favorite Prescription is the best of all restorative tonics.
